

CSF

New Logo!

CSF has a new logo!! We decided to change it to better communicate the differences between the different parties in the Student Council.

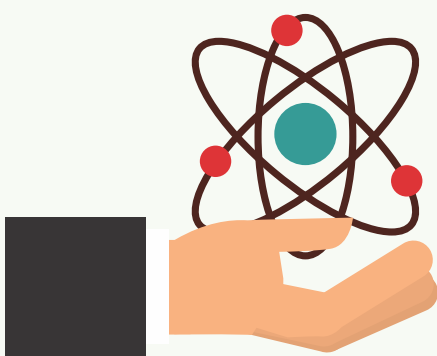

Strategic Plan

Together with the university we are now talking about the concrete plans for the strategic plan. The outcome of the brainstorm will be made more concrete. The writing will start at the end of the academic year.

Pre-investments

The Student Council has a say on how the Pre-investments are spent. The pre-investments are meant for direct investments in the quality of education. Among other things, the SC regarded thesis supervision, student counseling and skills education as very important.

Stress & Skills

As a result of the budget negotiations the SC has written a proposal on stress prevention and a proposal on increasing writing and group work skills among students.

New Education Building

In a few years time a new educational building will arise on our campus. This building will be built in phases taking into account the most recent student numbers.

Successors

The end of the year is already coming insight although we are not even half way yet. However this means that we are looking for successors. If you are interested or want more info, please contact us!

Contact

Feel free come by at our office (forum 014) or to contact us via other ways.

What is CSF?

CSF is one of three parties in the Student Council of Wageningen University and Research. CSF tries to use Christian norms and values to look at policy. Our core values are responsibility, integrity, equality and sustainability.
